The meeting was a walking tour of proposed stormwater management (SWM) upgrades to the Town. We visited proposed sites to help inform subsequent discussions in the Sustainability Committee on its positions relative to the existing plan. These positions are found in the July minutes as well as the minutes of the Town Council Meetings in June and July.

Committee members present were: Dubayah, Glen, Hurtt, Thompson and Twohy. Approximately 4 other Town citizens joined at various times. Zoom access was available, but no one called in to participate remotely.
